

High-power, commercial-grade EV car charging. 48A, Level 2 and supported by RAB!

Simple provisioning and monitoring.

RAB takes the complication out of setting up a charger. We will 100% commission your charger remotely **before it is shipped** to get you up and running in no time. If your needs change and the charger has to be reconfigured, we'll do that, too!

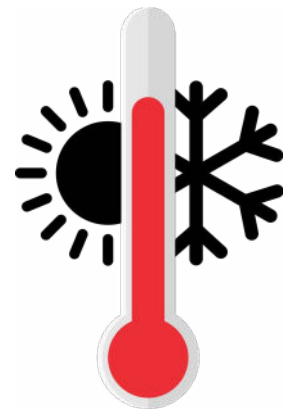

Let RAB manage the system.

The EVC48 can be user activated via QR Code or RFID card. RAB will manage authenticating new users for you and monitor the system for issues 24/7.

Durable, quality design.

The EVC48 is a high-power, Level 2 electric vehicle charger designed for both residential and commercial use. It's rated for use in -22° to 122° , can be mounted to either the wall or a pedestal, and comes with a standard 16' cable.
